

## Appendix C. *Plurals of Fish Names*

The plurals of most fish names are formed by adding the letters *s* or *es* (with stem changes as appropriate) to the singular. In a few cases, however, the plural is the same as the singular or more than one plural is acceptable.

### Names That Change in the Plural<sup>1</sup>

**C.1** Compound names with terminal roots that are common to more than one species usually change in the plural (exceptions are noted):

-back(s) <i>but</i> Quillback	-man (-men)
-blenny (-blennies)	-mouth(s)
-diver(s)	-rag(s)
-eel(s)	-roller(s)
-eye(s)	-side(s)
-fin(s)	-snout(s)
