TABLE 1. SCIENTIFIC NAME, OCCURRENCE, AND ACCEPTED COMMON NAMES

A = Atlantic Ocean, Ar = Arctic Ocean, P = Pacific Ocean, F = freshwater, C = Canada, M = Mexico, U = United States, [I] = introduced, [X] = extinct, [XN] = extinct in nature.

^ indicates a species not included in the seventh edition has been added because the area covered has been expanded to include the exclusive economic zone.

* indicates that a change has been made from the seventh edition to a name or occurrence or that an order, family, or species has been added to the list for reasons other than the expansion of the area covered, and an explanation for the change is provided in Appendix 1.

Common names in English are provided for all species in the list, names in Spanish are provided for species in Mexico, and names in French for species in Canada. En-, Sp-, and Fr- indicate family names in English, Spanish, and French, respectively.
